

Perfect advice

Sales support at the PoS

Training and advice

Providing information about hygiene, keeping staff informed about new regulatory policies, or giving expert advice about recipes and information about ingredients or origin: The touchscreen is the perfect platform for innovative employee training and valuable tips during the sales process.

Visibility and legibility

With the Flexible Scale Display System, the screen tilt angle and height can be individually adjusted to suit your sales area – including counter height and cash drawers. LED backlight technology ensures that the display is perfectly legible for your customer, even under the least favorable lighting conditions.

Design and hygiene

Form follows function: Flat, classic designs, which fit perfectly into a modern store. Easy on the eyes – and at the same time, very practical and hygienic. The daily maintenance of the scale is made easy thanks to its heavy-duty and easily cleanable surfaces.

Printer options

Receipt printing, label printing, or, with the double printer function, switch conveniently between labeling and operating mode with a one-touch action. Print out recipes, cooking tips or allergy advice on the scale at the same time – choose the printer unit which best suits your needs.

UC-HT-M

High-end PC-based scale with touchscreen control

The UC-HT-M is the perfect choice for businesses looking for a high-performance retail counter scale which is easy to integrate into the existing IT infrastructure, which supports third-party applications and also possesses adequate reserves, even for the most challenging of applications. Boasting a 12.1" touchscreen with brilliant LED backlight technology, a high-speed processor and large RAM and hard disk memory capacity, the scale performs weighing and operating processes quickly and is a perfect vehicle for giving advice to customers in order to promote sales.

The UC-HT-M is available with black and silver housings.

- **Tireless work – quick, error-free control**
- **Improving customer service – with recipe, nutrition and cooking tips**
- **Employee support – increasing advice capability**
- **Efficient business processes – seamless integration into goods management**

For the most stringent demands

The UC Evo Max Line is the METTLER TOLEDO PC scale family for the most stringent demands. The UC Evo Max Line supports a wide variety of fresh food. It also supports CPU-intensive applications, such as multi-media sales promotion at the point of sale. The UC Evo Max Line will convince you with its easy networkability and support for third-party applications.

- Touchscreen with LED backlight technology
- The tilt angle is adjustable by means of the Flexible Scale Display System
- Screen resolution: 800 x 600 pixels

Customer screen

- 5.7" (14.5 cm) screen
- Screen with LED backlight technology
- Height and tilt angle are adjustable by means of the Flexible Scale Display System
- Screen resolution: 640 x 480 pixels

Printer options

- 2" (54 mm) receipt printer
- 2" (54 mm) label printer; optional
- 2" (54 mm) combined receipt and label printer; optional
- 2" (54 mm) linerless printer; optional
- Printing speed: up to 125 millimeters/second
- Print resolution: 8 dots per millimeter
- Various print options, with or without totaling
- Logos printed on receipt or label
- Printing of upper and lower case characters
- Choice of 101 print fonts
- Freely definable labels

Data storage

- 250 GB hard drive
- SSD (optional)
- 2 GB RAM
- 4 GB RAM (optional)

Interfaces and protocols

- TCP/IP Ethernet interface (10/100)
- 1 x RS232 serial interface
- 1 x RJ11 interface for controlling the cash register drawer
- 2 x USB 2.0 connections
- Integrated wireless solution for wireless data transmission according to IEEE 802.11b/g/n standard (optional)

Remote maintenance and data communication

- InTouchSM Remote Services
- FTP (File Transfer Protocol)
- VNC (Virtual Network Computing)

Operating system

- Windows Embedded Standard 7
- Linux (optional)

Housing colors

- Black
- Silver

Weighing range	6 kg	15 kg	3 kg/6 kg	6 kg/15 kg	12 kg	30 kg
Graduation	2 g	5 g	1 g/2 g	2 g/5 g	2 g	5 g
Minimum capacity*	40 g	100 g	20 g	40 g	40 g	100 g

* EC: Printout under minimum capacity possible, but not with price marking.
Tare adjustment across the entire weighing range, automatic zeroing

Further information

For additional details about the features of the UC3 software for METTLER TOLEDO PC-based scales, as well as the optional METTLER TOLEDO applications, please refer to the relevant application sheets. Your METTLER TOLEDO sales representative will be glad to speak with you personally to provide further information.
